## "WOW"

Is the only words that will come out of your mouth when you see this little gem.

We are excited to present this adorable railway cottage.

Circa 1879, this three bedroom home has been lovingly restored and the work has been done for you to sit in the cosy lounge with a cuppa, and enjoy the tranquillity.

Beautifully presented, this home has revamped bathroom with claw foot bath, modernised kitchen with modern appliances but the ambience is definitely olde world. Outside is established garden area, double garage, studio, garden shed and all fully fenced. Believe in love at first sight?

Well you certainly will after seeing this one.
