On Top of the World

The title says it all, not only will you feel as if you are sitting on top of the world as you get lost in the views, but you will be happy with your lifestyle here.

A beautiful 10 acres has it all, grassy slopes, flat plain and a tree-protected paddock with shearing shed.

The land is clean and usable and has the added benefit of being accessible by a rear road as well as the main sealed road leading to the Hume Freeway.

You will love spending time in the Tasmanian Oak kitchen when the view from the window is as inspiring as this one!

A ducted vacuum system is a practical addition to make life even easier.

A huge bonus at this property is the connection to the town water supply.
