Best of Both Worlds

What an excellent example of a sensible and appealing renovation this 2 bedroom townhouse is.

The exterior has been refreshed whilst the interior is now completely brand new yet retains some of the features of the previous residence such as the ornate cornices and patterned glass doors to the spacious lounge and wide entrance hallway.

Large bedrooms with built-in robes will please you as will the sparkling new kitchen with ample cupboard space.

The adjacent meals area leads you to the wonderfully private alfresco deck and courtyard.

A single remote garage has internal access to the interior of the home through the laundry which also has good cupboard and bench space.

The pristine, light filled bathroom has separate bath and shower.
