## VERSATILE, FUNCTIONAL, BIG!

A winning combination of a huge family homestead, an acre of land (approx.) and a prestigious location, this lifestyle property is perfect for the large or extended family or those that just want plenty of room to move. Positioned facing the northern sun, this well designed home is a steel frame by JG King. The layout comprises 4 bedrooms, study and 3 versatile living rooms.

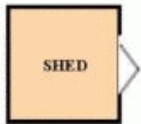

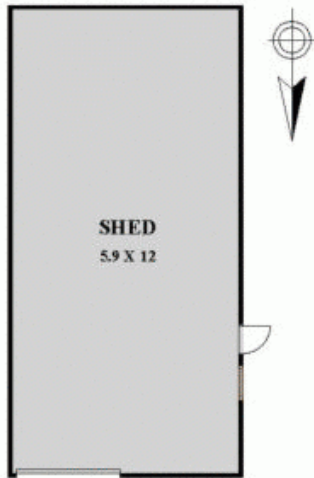

Views from the living areas capture the whole rural outlook of the property and with sliding doors to the giant alfresco area, the indoor/outdoor lifestyle is well catered for.

A well-proportioned hostess kitchen provides a central breakfast bar large enough to accommodate lots of hungry mouths and loads of cupboard and pantry space.

Enjoy ducted heating, ducted cooling for instant comfort. Plus the Coonara-style wood heater in the main lounge creates a cozy atmosphere while keeping the winter chill well and truly out. His and hers cars have a double remote-controlled garage with easy internal access
