## DUAL ACCESS

We are proud to present to the market this lovely four bedroom home with children's playroom / study and private master suite. What a great family home with two living areas, walk in pantry, spa, and loads of natural light plus a fantastic entertaining area. The massive block of approximately half an acre has dual entry through to Dry Creek Crescent, access to a great walking track and the potential to subdivide, (STCA) this is really a lovely area. Call today, the early bird gets the worm.
